

Stop the War!

Troops out now!

As the wars in Iraq and Afghanistan drag on without end, we must reassert our opposition to America's imperialist misadventures, and keep up the pressure to stop the wars and bring the troops home now.

After more than five years of war at home and abroad, we cannot afford to let the issue fade into the background.

Join us this **Friday, 16 May**, to

stand out against the war

starting at 5 pm in **Copley Square**.

Part of the *Iraq Moratorium* project, this local action complements large regional and national demonstrations, keeping the war in Iraq an issue and agitation against it visible.
